Survey of Economic and Social Developments in the ESCWA Region 2011-2012

by United Nations

Economic and Social Commission for Western Asia - Inventory of . The Survey of Economic and Social Development in the Arab Region 2011-2012 assesses the most recent economic and social developments in the Arab Region, highlighting the impact of globalization and the global financial crisis on economies and social development in the Western Asia region. The Survey also examines the role of inclusive social development in addressing the challenges faced by Arab countries. It covers a range of topics, including the role of the middle class in Arab societies, the impact of the global financial crisis, and the importance of education and infrastructure development for sustainable development. The Survey also provides an overview of the economic and social developments in the Arab countries, including trends in agriculture, industry, and services, as well as an analysis of the unemployment situation and the role of women in the labor market. The Survey of Economic and Social Developments in the ESCWA Region is an annual publication by ESCWA, United Nations House, Riad El Solh Square, Beirut, Lebanon. The Survey assesses the economic and social developments in the ESCWA region, including the impact of the global financial crisis, the role of inclusive social development, and the importance of cooperation among the United Nations regional commissions.
